Re: PR Docket 92-235

Dear Secretary:

It has come to our attention that PR Docket 92-235 contains provisions for restructuring frequency bands that will cause a great deal of hardship in our performance of our emergency duties. There are also apparent certain conditions involving varying altitudes and terrain situations here that will make communication impossible.

We recommend PR 92-235 be totally stopped until an affordable and workable communication system can be designed.

Sincerely yours,

Ken Schuetz, President
